

Task 1: Build your CV

PRATIK JAMARIYA

Aspiring Data Scientist

Porbandar, Gujarat | +91 7016235198 | jamariyaprteek@gmail.com

CAREER OBJECTIVE

Aspiring Data Scientist pursuing a Bachelor of Computer Applications (BCA), with a strong foundation in Python, statistics, and machine learning. Skilled in Python, SQL basics, and data science libraries such as Pandas, NumPy, and Scikit-learn, with hands-on experience building and evaluating end-to-end data science projects using publicly available datasets. Seeking to contribute analytical and technical skills to a data-driven role while continuing to grow as a data scientist.

ACADEMIC PERFORMANCE

Qualification	Institution	Year	Score
BCA (Bachelor of Computer Applications)	V. J. Modha College	2023 – 2026	CGPA: 8.91
12th (HSC)	Sigma Public School	2023	70%
10th (SSC)	Sigma Public School	2021	66%

SKILLS

- Languages & Querying: Python, SQL (Basics), MS Excel (Pivot Tables, VLOOKUP)
- Data Analysis & ML Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn
- Tools & Platforms: Jupyter Notebook, Google Colab, Git & GitHub
- Web Development: HTML, CSS, JavaScript

EXPERIENCE

Web Development Intern | Xceptive Solutions LLP (6 Months)

- Completed a 6-month internship focused on web development, gaining practical exposure to development workflows and tools.
- Received a certificate of completion for the internship.

PROJECTS

IPL Winner Prediction | Python, Scikit-learn

- Built a machine learning classification model to predict the winning team of IPL matches based on historical match data.
- Cleaned and preprocessed match data, handling missing values and encoding categorical features to build an analysis-ready dataset.
- Trained a classification model and evaluated its performance on a test set.

Sales Data Analysis | Python, Pandas, Matplotlib

- Analyzed retail sales data to identify trends, top-performing products, and seasonal patterns for better business understanding.
- Performed exploratory data analysis (EDA) on the sales dataset to uncover patterns across products and time periods.
- Created visualizations (bar charts, trend lines) to present key findings in a clear, easy-to-understand format.

Movie Recommendation System | Python, Pandas, Scikit-learn

- Built a recommendation system that suggests movies to users based on similarity in genres and ratings.
- Preprocessed user ratings and genre data, and applied similarity-based techniques to generate movie recommendations.
- Tested the recommendation logic on sample user profiles to validate relevance of suggestions.

CERTIFICATIONS

- Data Science Certification — Coursera

ACHIEVEMENTS

- Successfully built and evaluated 3 end-to-end data science projects using publicly available datasets.
- Completed a 6-month Web Development Internship at Xceptive Solutions LLP with a certificate of completion.

INTERESTS

- Data Science and Machine Learning
- Web Development
- Exploring new programming tools and technologies

LANGUAGES

English (Professional), Hindi (Native), Gujarati (Native)
